THE EU DISTRIBUTION AUTOMATIC WAREHOUSE

SYSTEM CERTIFICATION

QUALITY ASSURED

The Company has been assessed and certified as meeting the requirements of ISO 9001:2015

These certificate is valid for the following scope of application:

**Commercialization
of Automotive Parts and Accessories
Certificate Number 612436**

QAICL Ref: IT/90039-A

GAS SHOCK

MAIN COMPONENTS

HYDRAULIC SHOCK

CHROME PLATED BAR

NITROGEN GAS

ANTI-LEAK SEAL

FLEXIBLE DISK

REBOUND VALVE

SINTERED PISTON

SEAMLESS TUBE

COMPRESSED VALVE

GAS SHOCK

- Stable Steer valves - better contact of the tires with the ground
- Sintered Iron piston - Higher durability and maximum performance
- Control Disk - Consistent control for comfort and stability
- Original Equipment Oil Seal - Less friction for maximum comfort and performance
- Super-finished Chrome Bar
- High Pressure Nitrogen Gas
- High precision cylinder - higher durability is guaranteed
- Selected excellent oil
- Low-friction DU bush - high durability

HYDRAULIC SHOCK

- Stable Valve Systems - Higher stability with control and performance
- Sintered Iron piston - Higher durability and maximum performance
- Control Disk - Consistent control for comfort and stability
- Original Equipment Oil Seal - Less friction for maximum comfort and performance
- Super-finished Chrome Bar
- High precision cylinder - higher durability is guaranteed
- Selected excellent oil
- Low-friction DU bush - high durability

MONO-TUBE SERIES

- Super High Pressure Nitrogen Gas
- Mono-tube construction - better cooling and prolong shock absorber life-span
- Multi-stage Control valve - Consistent control for comfort and stability
- Super-finished Chrome Bar
- Floating piston - Refined floor response
- High precision cylinder - higher durability is guaranteed
